

Museum of Glass

BENAROYA HALL, SEATTLE, WA

The 187,000 sq. ft. performing arts facility for the Seattle Symphony Orchestra features a 2,500-seat concert hall with world-class acoustics and a built-in pipe organ, an additional 540-seat recital hall, 5,000 sq. ft. of retail tenant space and underground-parking garage. *ACEC-WA Honor Award winner in 1999.*

EXPERIENCE MUSIC PROJECT, SEATTLE, WA

This 140,000 sq. ft. interactive museum at Seattle Center includes a variety of traditional exhibits, hands-on technology, educational programs, live performance venues, café, restaurant and gift shop. The variety of spaces required strictly controlled environmental monitoring systems. *ACEC-WA Award of Merit winner in 2000.*

FUTURE OF FLIGHT AVIATION CENTER AND BOEING TOUR, EVERETT, WA

The new multi-faceted aviation museum, tour center and education complex provides visitors with an enhanced appreciation of the science of flight. Visitors have access to a 35,000 sq. ft. exhibit hangar, rooftop observation deck overlooking Paine Field, theater, gift shops, café and special events space for up to 700 guests. Interactive exhibits include a flight simulator and an opportunity for visitors to test their jet designs.

MUSEUM OF GLASS, TACOMA, WA

This 75,000 sq. ft. contemporary glass art museum and working arts facility contains exhibition space and a “hot shop” for glass blowing and sculpting demonstrations. Extreme emissions and heat from the kiln required an environmental monitoring system and sustainable approach to save energy. *ACEC-WA Gold Award winner in 2003.*

Future of Flight Aviation Center and Boeing Tour

*Science Fiction Museum
and Hall of Fame*

ROOSEVELT HIGH SCHOOL THEATER/PERFORMING ARTS CENTER, SEATTLE, WA

Roosevelt's \$3.5 million theater transformation provides a new performing arts space with 750 seats and full orchestra pit, full fly space and adjustable acoustics. Old theater seat ends form the balcony rail in the new theater. The entire mechanical system was replaced in this 1,725-student high school with historical landmark status.

SCIENCE FICTION MUSEUM AND HALL OF FAME, SEATTLE, WA

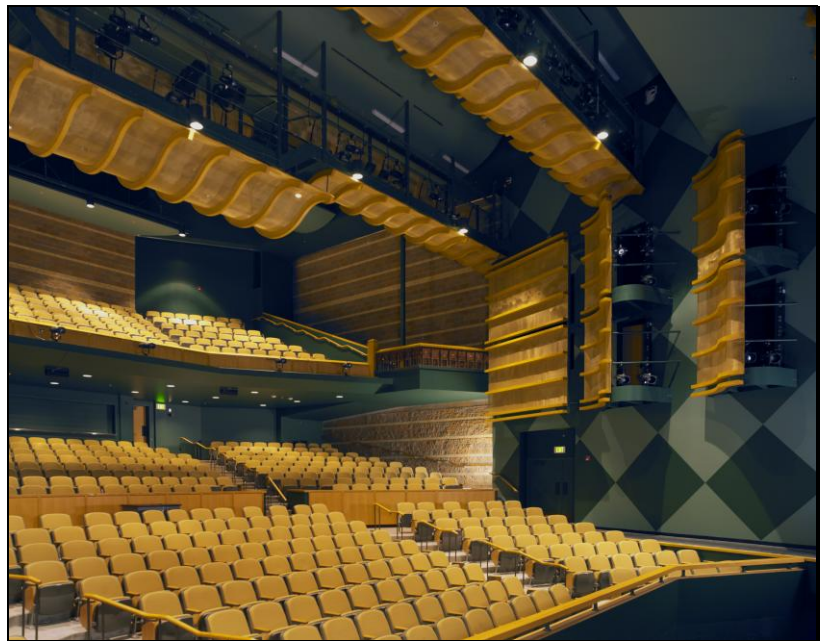

A \$20 million conversion of space within the Experience Music Project to add performance space and 9,000 sq. ft. of exhibit area. The museum contains an extensive collection of sci-fi memorabilia while an interactive hall of fame profiles sci-fi authors.

Experience Music Project

STADIUM HIGH SCHOOL PERFORMING ARTS CENTER, TACOMA, WA

A 70,000 sq. ft. addition to the historic "castle" provides a 450-seat performing arts theater with a fly loft. The \$73 million modernization and restoration required replacement of all mechanical systems to conform to contemporary teaching methods and technology. A major challenge was fitting new HVAC systems into the castle, including air handlers that had to be brought into the building in sections and re-assembled in place.
